

Pain Awareness Month

September 10, 2020, Thursday

The World Health Assembly has designated 2020 as the International Year of the Nurse and the Midwife. Alleviating pain is an integral component of the care that nurses and all members of the health care team deliver.

As we celebrate Pain Awareness Month in September, the Pain Management Committee will be hosting a Grand Rounds dedicated to pain management.

Please take this brief [survey](#). It should take five minutes or less to complete. Your responses to the survey will inform us of the topics about pain management that are important to you. The survey responses will be used to plan the upcoming Grand Rounds on Wednesday, September 30, at 1 pm.

Frances Cartwright, PhD, RN-BC, AOCN
Chief Nursing Officer
