

# Should I get vaccinated if I have allergies?

**Yes!**  

**Common allergies, such as food, animal, pollen, or latex, are NOT a problem and should NOT prevent you from getting vaccinated.**

If your allergies are related to vaccines or other shots, however, you should talk to your doctor. They will help you decide if it is safe to get vaccinated.

**Getting vaccinated is the best way to help end the pandemic, and protect yourself, your loved ones, and your co-workers.**

**Make an  
appointment**
