

COVID-19 Safety

Code of Conduct

Everyone must take these six actions to make Mount Sinai Health System a safe workplace:

- 1.** Check your temperature and for other COVID-19 symptoms, and complete the electronic self-attestation form on your phone or at a screening station, before the start of each shift.
- 2.** Contact Employee Health Services (EHS) before reporting to work if you have a new onset of COVID-19 symptoms, or if anyone in your household or a close contact has been diagnosed with COVID-19 or develops symptoms of COVID-19.
- 3.** Wear a Mount Sinai-issued face mask at all times while in public areas such as hallways, shared office spaces, elevators, meeting rooms, and restrooms.
- 4.** Maintain social distancing in elevators and common areas, and especially when eating and you cannot wear a mask.
- 5.** Practice frequent hand hygiene.
- 6.** Wear eye protection when you are providing direct patient care at the bedside or in a treatment room.
