COVID-19:

Your Blood Could Save Lives

If you had COVID-19 and have recovered, you can help save a life. Your blood may contain antibodies that fight the virus and can help critically ill people.

Mount Sinai is looking to screen you as a volunteer if:

- **You tested positive for COVID-19**
- **You have been free of symptoms for at least 14 days**

Do not come to our facilities. Instead, please fill out the form online through the link or QR code below. A team member will contact you if you are eligible.
