

COVID-19 Headlines

July 8, 2020

- It is Mount Sinai Health System policy that you must fully cover your mouth and nose with a Mount Sinai-issued surgical mask when you enter and leave our campuses, and when you are in our public areas, corridors, and elevators.
- The science about mask-wearing is clear: Wearing masks slows the spread of COVID-19.
- Treat masking like hand hygiene. If you see a colleague not wearing a mask properly—fully covering the nose and mouth—gently remind them. It's for everybody's good.
