NO VISITORS ALLOWED

Due to the COVID-19 pandemic, there are limited policy exceptions for healthy visitors, including:

- **Labor** and **Delivery**
  - including immediate postpartum period:  
    - One healthy visitor, no rotation.

- **Pediatrics, NICU** and **Pediatrics ED**
  - One healthy visitor allowed.
  - (Rotation between two healthy visitors is only allowed in prolonged hospitalizations but only one visitor may be present at a time.)

- **Immediate End of Life situations**
  - **Two healthy visitors** (only one may be present at a time), as long as we can ensure visitor and staff safety.
  - If the patient is a parent of a minor child, one adult family member and one child may be permitted at the bedside.

- **Patients for Whom a Support Person has been determined to be essential**
  - to the care of the patient (medically necessary)
  - including patients with intellectual and/or development disabilities and patients with cognitive impairments including dementia: **One healthy visitor allowed.**
  - (Rotation between two healthy visitors is only allowed in prolonged hospitalizations but only one visitor may be present at a time.)

Thank you for your understanding in these very difficult times.

All visitors will be screened for symptoms of COVID-19, including temperature checks upon admission and every 12 hours thereafter. If a visitor shows any symptoms, staff will politely ask them to leave and provide appropriate follow-up information.

Depending on the patient situation, some visitors will be required to wear personal protective equipment (PPE).

Please note, the visitor policy may be adjusted to ensure the safety of staff, patients and visitors.

We will support connection to family and friends through virtual means such as phone, FaceTime, Skype or Zoom meeting. By doing this, we aim to meet our patients and their families' needs while ensuring a safe environment.
