

# COVID-19

## Today's Update

March 3, 2020

Calm • Focused • Ready

### ■ WHAT'S NEW:

Although a patient who visited The Mount Sinai Hospital ED was found to have COVID-19 infection over the weekend, incidence of this disease remains very low in the New York metropolitan region. The Mount Sinai Hospital team did everything right and the patient and staff were all kept safe.

### ■ WHAT'S KEY:

If you are sick—especially with fever or any type of respiratory symptoms, like coughing—**PLEASE STAY HOME FROM WORK.**

### ■ WHAT'S GOOD TO KNOW:

We know that you are getting lots of questions about COVID-19. If anyone asks you a question and you don't know the answer or feel comfortable answering, the best resource is the CDC website:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

It is packed with useful information and you should feel very comfortable directing people to it.
