New Limitations on Visitors:

In most cases, in-patients will only be allowed two healthy visitors at a time. However, many units have further restrictions. See below for details.

Visit only if you are healthy. If you have a cold or flu-like symptoms, please stay home. All visitors must be 15 years or older.

- **Post-Anesthesia Care Unit**: Only one healthy visitor is allowed.
- **Intensive Care Unit/Neonatal Intensive Care Unit**: May limit to one healthy visitor.
- **Emergency Department**: All patients in the emergency departments will be limited to one healthy visitor at a time.
- **Maternity Ward**: Limited to one healthy partner (and a doula or birthing coach).
- **Ambulatory Sites** (i.e., Urgent Care, Medical and Surgical Practices, Radiology, Oncology, Ambulatory Surgeries and Procedure Suites): Only one companion per patient allowed into the practice (with the exception for pediatric patients who may have two).

Specific Limitation for Visiting COVID-19 Positive Patients:

Patients who are COVID-19 positive, under investigation or are under monitoring will not be allowed any visitors.

Please note: All main Mount Sinai cafeterias are temporarily closed to the general public as a precautionary measure. Cafes and smaller on-site food options will remain open.
