Why am I being transferred?

As you know, New York City, along with the rest of the country and much of the world, is in the midst of a public health emergency. As one of the largest health systems in New York State, Mount Sinai Health System has been asked to do everything we can to protect the health and welfare of our patients and surrounding communities.

Our team is committed to providing you with the best care in the best location available. This includes considering all possible locations across the Mount Sinai Health System. We are strongly committed to making your safety our top priority.

With your safety and well-being in mind, your medical care team has decided to transfer you to another facility within the Mount Sinai Health System. We will continue to provide you with high quality medical care so you can recover as quickly as possible.

We appreciate your cooperation and patience throughout this time.

Mount Sinai
