

# Online Affiliation Verification

The health system's centralized Medical Staff Services office offers an online hospital affiliation verification portal of our current and former Medical and Advanced Practice Provider staff. An affiliation letter can be produced to show a practitioner's appointment dates and specialty information.

**You are responsible and liable to ensure that a valid waiver and release has been obtained from the practitioner prior to accessing the affiliation verification information on this website.**

Click [MSHS Affiliation Verification Portal](#) to access the website.

**Note:** At present, the portal excludes practitioners affiliated with our **Mount Sinai South Nassau hospital**. This is a temporary condition and we apologize for the inconvenience. To request an affiliation verification for this hospital, email our office as follows:

**To:** [MSS-Intake@mountsinai.org](mailto:MSS-Intake@mountsinai.org)

**Subject:** MSSN Affiliation Verification Request – *specify practitioner name & degree*

**Attachment:** waiver/release form

**Body:** your request and contact information

If you experience difficulties using this website or if it instructs you to contact Medical Staff Services, email the main office at [MSS-Intake@mountsinai.org](mailto:MSS-Intake@mountsinai.org) and include a copy of the practitioner's waiver/release form.
