To: Mount Sinai Hospital Credentialed Attending Staff  

From: Vicki LoPachin, MD, FACP, MBA  
Chief Medical Officer  
Senior Vice President  
The Mount Sinai Health System  

Re: Completion of Language Competency Profile on Sinai Central  

Date: April 18, 2018  

The Mount Sinai Hospital strives to comply with Joint Commission standards regarding communication with Limited English Proficient (LEP) patients and has a process in place to ensure communication with the patient in the non-English language is effective and meets the patient’s needs. 

If you are a bilingual provider who wishes to communicate directly with a patient in a language other than English while providing care, treatment, or services, please click to the link below to complete the Employee Language Skills Self-Assessment located under Employee Self Service on Sinai Central by no later than May 1st, 2018. Please see attached guide. 

A representative from the Language Assistance Program will review the Employee Language Skills Self-Assessment and update status. 

Please note: this is NOT to be considered a Qualified Medical Interpreter. 

- **Bilingual Provider**: Individual capable of communicating with a patient in a language other than English in an effective and accurate manner within the scope of practice or clinical specialty.  
Staff will be considered language proficient if they are native speakers or if they have taken and passed a language proficiency test in the target language.  

- **Qualified Medical Interpreter**: Individual with appropriate training and experience who is able to interpret consistently and accurately in a health-care context. This professional functions in accordance with medical interpreting standards of practice and adheres to a code of professional ethics. 

Should you have any questions regarding how to complete your language competency profile, please contact the Language Assistance Program at your site:
