## About Pediatric Ear, Nose and Throat at Mount Sinai

The pediatric ear, nose and throat physicians (otolaryngologists) at Mount Sinai are fellowship trained and have built their practice with an emphasis on the parent and patient experience. We take seriously the trust placed in us by our patients and their families to provide the best care possible.

With experience in all facets of routine through complex pediatric otolaryngology, our team of experts provides the most current recommendations to empower parents to make the optimal treatment decisions for their child. We pride ourselves on educating parents about the child's specific disease processes and in communicating effectively with referring

physicians so that everyone involved in the child's care has an accurate understanding of the problems and plan. When necessary, our team at Mount Sinai works in a multidisciplinary approach with other pediatric subspecialists, bringing together collective expertise of multiple physicians to personalize a comprehensive treatment plan for the whole child.

### Why Choose Mount Sinai?

- Fellowship trained physicians
- Emphasis on the parent and patient experience
- Advanced treatments and technology
- Multidisciplinary (team) approach
- Routine through complex care
- Offering the full range of pediatric ear, nose and throat care
- Personalized treatment plan for each patient

Our goal is to provide the highest quality and most advanced care, delivered in a positive and supportive environment. We put patients and families first in everything we do.

## Meet the Pediatric ENT Team

### Alyssa Hackett, MD

*Pediatric Otolaryngologist  
Mount Sinai Doctors East 85th Street  
New York Eye and Ear Infirmary of Mount Sinai*

Dr. Hackett is dedicated to treating the full range of childhood ear, nose and throat disorders, including head and neck masses, airway disorders, hearing loss, sleep apnea, and chronic infections. Trained in the latest techniques and practices, she is committed to staying on the leading edge of medicine through ongoing sleep apnea research and customized treatment plans.

### Aldo Londino, MD

*Pediatric Otolaryngologist  
Mount Sinai Doctors East 85th Street*

Specializing in the treatment of children with complex medical problems of the ears, nose, and throat, Dr. Londino has a special interest in improving the quality of peri-operative experiences for patients and parents. Some of the conditions he enjoys treating include sinus disorders, dysphagia, hearing loss, laryngomalacia, cholesteatoma, and tonsillitis.

### Maura Cosetti, MD

*Otologist/Neurotologist  
Director, Cochlear Implant Program  
Ear Institute at New York Eye and Ear Infirmary of Mount Sinai*

Fellowship trained in neurotology and skull base surgery, Dr. Cosetti's clinical expertise span the gamut of all hearing disorders, with an emphasis on complex cases. This includes cochlear implantation, cholesteatoma, chronic ear disease and infections, tinnitus and eardrum repair.

### Mingyang Gray, MD

*Facial Plastic and Reconstructive Surgeon  
New York Eye and Ear Infirmary of Mount Sinai  
Mount Sinai Doctors East 85th Street*

Dr. Gray is fellowship trained in facial plastic and reconstructive surgery. She is recognized for her expertise in cleft lip and palate, as well as microtia.

### Gregory Levitin, MD

*Director, Vascular Birthmarks and Malformations Program  
Mount Sinai Health System*

Dr. Levitin is a nationally recognized expert in the diagnosis and management of all types of vascular birthmarks, providing medical, laser and surgical therapy. He also specializes in complex head and neck vascular malformations requiring facial nerve preservation.
