KNITTING GROUP

Check in with friends, work on your knitting or crocheting, discuss projects you are thinking about, show off what you are working on! You might even get inspired by our group of weekly knitters. Thursdays from 12:30-1:30PM. Once you get beyond the initial learning curve, knitting and crocheting can lower heart rate and blood pressure and reduce harmful levels of the stress hormone cortisol. But unlike meditation, craft activities result in tangible and often useful products that can enhance self-esteem.
