How TelePrEP Works

1. **Health and Insurance Inquiry**
   Answer medical and insurance questions; if you are eligible for TelePrEP, you can schedule a video visit with a provider.

2. **Medical Provider Consult**
   Consult with medical provider via MyMountSinai video visit.

3. **Labs**
   Labs are ordered for client for review of medical status for PrEP by provider.

4. **Medications**
   Prescriptions sent to MSHS pharmacy if appropriate and home delivered at no cost to client.

5. **Follow Up**
   Follow-up video visit is scheduled via MyMountSinai® (MyChart). Follow-up labs completed a few days prior to the video visit, will be reviewed at the video visit.
