

A STROKE CAN  
HAPPEN ANYWHERE.  
THAT'S WHY WE  
HAVE TREATMENT  
CENTERS  
EVERYWHERE.

**Mount  
Sinai**

During a stroke, time is the enemy. Which is why we have more locations than any other hospital in New York City that can quickly restore blood flow to the brain. **Which hospital you choose can make all the difference in the world. [mountsinai.org](http://mountsinai.org)**
