

## A Note From Dean Ambrosia

I am pleased to announce that the Phillips School of Nursing at Mount Sinai Beth Israel (PSON), the sole nursing school of the Mount Sinai Health System, will be relocating from Chelsea to East Harlem in early 2020. With a location closer to The Mount Sinai Hospital and the Icahn School of Medicine at Mount Sinai, our students, faculty, and staff will have a greater opportunity for interprofessional learning, community partnerships, and other special initiatives.

Located at 158 East 126th Street between Lexington and Third Avenues, our new site is part of the Upper Manhattan Empowerment Zone—an area enjoying a robust resurgence due to investments from multiple sectors including construction, hospitality, retail, and energy.

PSON's new facility will encompass more than 35,000 square feet of space designed to respond to today's technology-driven nursing curricula and to accommodate anticipated growth. Amenities include:

- A state-of-the-art simulation center featuring a hospital inpatient and operating room
- A multi-purpose auditorium

- Learning environments specifically designed for nursing education

Since its establishment in 1904, PSON has been committed to serving a diverse student population where progressive curricula blend classroom teaching with clinical practice. We currently offer two contemporary nursing programs:

- A 15-month Accelerated Bachelor of Science in Nursing program (ABSN) for second degree students that leads to eligibility for registered nurse licensure
- A 15-month Bachelor of Science Completion Program (RN-BS) for registered nurses

The school's exceptional faculty, passionate and inquisitive students, and dedicated staff make PSON an unrivaled setting for nursing education that will enhance health care delivery for the local and global communities.

This move symbolizes an exciting new era in our history. We will update you on our progress as the move date approaches.

Sincerely,

Todd F. Ambrosia, DNP, MSN, APRN, FNP-BC, FNAP
